

GERMAN SUBMARINES DEAL BLOWS TO NORWAY

OPEN OR CLOSED SHOP CEASES TO BE STRIKE ISSUE

Representatives of Strikers Repeat Assurance When They Pay Visit to Mayor

FIRM STAND FOR NEW WAGE SCALE MAINTAINED

Waterfront Situation Practically Unchanged Since Meeting of Last Saturday

That the question of an "open" or "closed" port has been withdrawn from their demands, but that their request for 40 cents an hour and 55 cents for overtime must be granted before they return to work, was the announcement made by Mayor John C. Lane this morning by five delegates of the longshoremen's union. The men called on the mayor this morning to inquire whether he had received any word from the employers as to further plans for a settlement of the strike. Mayor Lane told them he had not. He said he was absolutely neutral in the matter but would be glad at any time to advise and help them so far as he could.

Once Had Matter Up  
The men told me, said the mayor, "that before the death of Charles Bon, head of the stevedoring company, they had taken up the matter of increase of pay with him and he had promised them a raise but after he died nothing was done about it. This time they intend to stay out until their demands are granted."

The mayor said that the raise in pay is the only demand being made by the strikers. They have withdrawn the demand for a closed port and, having also lowered their first figures, making it now up to the employers to give or not to give. "I will return to work and ask no questions," is the stand they are taking, according to the mayor.

One statement when seen this morning was that the strikers had been told that the long run, "these labor is always expensive," said, "and if I had the power I would shut the city out of work. When the General National comes, if the strikers don't get what they want, the men mean, I shall go out and get the men myself and pay my own scale of wages."

When asked today whether they had, as a result of Saturday's arbitration conference at which they rejected the invitation of the committee to return to work and then picket their demands for higher wages, the San Francisco union to declare "unfair" cargoes loaded here by non-union labor, officials of the local union refused to give out any statement.

A. F. Met Counted On  
"We don't want much on that end (San Francisco)," said a union official. "Because we don't need to. We have things well under control here and our relief fund is still large enough to feed all our members for weeks to come." He added that the union had not yet called on him for a \$100 he was able to secure as a loan from the engineers' union.

Quarantine Reported Sick  
Jack Stevenson, who has acted as spokesman for the stevedores' union since it was organized, and is a member of its standing committee, was taken to the office this morning, as he reported not to be feeling well. He had not shown up at union headquarters since Friday that on the report of Saturday's arbitration conference would depend whether San Francisco union men would be asked to declare unfair the cargoes of stevedores loaded here by strikebreakers.

No Trouble With Stevedores  
No trouble was reported on the waterfront this morning. The Oceanic steamer *Siam* docked at 8:30 a.m. and Superintendent J. V. Johnston of the sailing department of the harbor, at once put 23 Hawaiian, his own men, to work. "I had no trouble getting all the men I needed," he said, "nor was there any attempt by union men to keep them from going to work." The *Siam* had only 28 tons to unload here and 21 to take on, so 25 men were ample to work the steamer.

25 Men Working Wilhelm  
At noon today McCabe, Hamilton & Company officials said they had 25 men working the *Matson* steamer *Wilhelm* at Pier 15. "All we can possibly do," they said, "is that number of Hawaiians, and the remainder of the Japanese and Filipinos. They claimed to have worked the other full blast Sunday and last night, and said work was not crippled or hindered in any way."

Policy is Suspended  
All is not harmony among the San Francisco longshoremen, it copies of the *San Francisco Chronicle* of September 25, all that number of Hawaiians, and the remainder of the Japanese and Filipinos. They claimed to have worked the other full blast Sunday and last night, and said work was not crippled or hindered in any way."

NEW YORK STOCK MARKET TODAY

JAPANESE CLAIM THEY DARE NOT RETURN TO WORK

Numbers Who Have Not Affiliated With Union Declare They Oppose Strike

The Japanese stevedores who left the waterfront today did not all join the union. Those who did not have joined from the union, Mizusaki says, that some of the stevedores who left him and his sympathy with the strike and that a majority of his men simply quit their work to avoid danger of being taken back to the mainland, as they were threatened by the Filipino strikers on their way home from work and urged by their families not to go to the waterfront to work. Most of them, he says, have no intention of joining the union. "I was told that 20 of my men have joined the union already, but I hardly believe so, as none of them came and reported the fact to me. They all worked for me for a number of years and supported their families under my employment," Mizusaki continued.

Several of the Japanese stevedores living in Palama section were seen by the Star-Bulletin this morning. Each of them said: "We were compelled to quit work for our own safety, but we are bitterly against our countrymen who strike the union. We all come from the sugar plantations and were once strikers on the plantations and suffered from these same Hawaiians and Filipino strikebreakers who took our places nine years ago. The members of the stevedores' union are mostly Hawaiians and Filipinos who have never shown the slightest sympathy with the Japanese. What is the necessity for the Japanese to join the union and assist those who opposed us nine years ago? The so-called stevedores' union is known to us as an anti-Japanese organization. They will not welcome the Japanese into their membership. They only admitted some of the Japanese into the union for their own policy against the Japanese and for the protection of their claims for higher wages and they are going to use the Japanese as their tools. It is foolish for the Japanese to join the union. If protection is given us by the shipping concerns we will go back to work at any time."

Waking Give Views  
Fred Makino and his undermen are working among the strikers and those who quit their work for safety. He said this morning in regard to the strike situation: "It is rather too small a question for the large shipping concerns to hold out the fact that the union men did not properly negotiate with them before the strike. The union men recognize that they made a mistake in this step, but it is too late to correct it now. The strikers must admit the claims of the unionists or the strike may spread to some other body of laborers."

I am glad Mr. Waldron is in favor of higher wages for the laborers. I am going to back the strikers among the Japanese until they succeed. Then I shall wash my hands of this matter and attend to my own business."

T. Mizusaki had more than 150 men under him before the strike, and lost about 50 men shortly after the strike started. He still holds 100 men and was working on Pier 17 last Saturday evening. Today he has only 17 men with him.

Figures given out by the British Board of Trade for August show imports increased \$23,580,000, while exports increased \$76,465,000.

WITH PRIMARIES NEARBY 'SLATES' ARE BEING MADE

Combinations of Candidates Particularly Noticeable in Republican Circles

HOLIDAY SATURDAY MAY INFLUENCE ELECTION

Experts Figure That "Haoles" Vote is Likely to Be Less and Other Vote More

With primary election day four days away a dozen "slates," some of them printed, have made their appearance, mostly in the Republican camps. The slatemakers have framed up various combinations for the house of the senate, the purpose being to insure the nomination in the primaries of some candidate or group of candidates, either by combining strength with others or by the simple process of "dumping" others.

One slate, for instance, is for the Republican house nominations in the fourth district. A candidate told the Star-Bulletin today that this slate contains but two names, and those who receive the slate are advised to vote for but two only, so that the vote of other candidates might be nullified.

A well-known rumor went the rounds today that several Hawaiian politicians are advising their followers to "dump the haoles" or white candidates. The Star-Bulletin spoke to a number of candidates and Republican workers and without exception they said they had heard the rumor. Some put little faith in it. Others believe that there is a strong undercurrent against the "haoles" and that the primary election next Saturday will show it.

Among the slates either put out in printed or written form or discussed are the following:

In the Republican fight for the three nominations for the senate on October 2, there are two slates being extensively promoted. One has S. P. Corcoran, Jack Lucas and R. W. Shingle on it. The other has Shingle, Corcoran and A. C. Another slate has Shingle, Lucas and Corcoran—a reverse of the first named, for what reason has not yet appeared.

In the house race there are numerous slates. One has Clarence Cooke, T. H. Petrie, Lorrin Andrews, Andrew Bright, J. K. Kaniakouli and Charles N. Marquez on it. Several others contain the names of Cooke, Petrie and Andrews.

Republican leaders have heard a report which seems to be well substantiated, that Gerrit P. Wilder is to be "dumped." (Who is at the bottom of the movement appears to be unknown, though it is credited to

STORE HOUSES OF ARMY TO BE NEAR SHAFTER

Orders From Washington Name Location; Will Call Soon For Bids

With instructions just received from the war department to proceed with the erection of 10 store houses near Fort Shafter, the local quartermaster's department is making plans for an immediate call for bids. The cost of the buildings will amount to approximately \$127,000.

Army officers said today that the store houses will lie on the opposite side from town of the Slaughter House road, and to the left or makai side of King street. The buildings will be of galvanized iron roofs with concrete walls and floors.

Authorization for the buildings was received from the war department on August 5 of this year, a story to this effect being printed in the Star-Bulletin at that time. Later the local officers applied to Washington to have the buildings placed at the Honolulu waterfront in the belief that this nearer location to shipping would facilitate handling supplies. The request was refused as shown by the present instructions.

GREAT ALEXANDER BLANKS BOSTON; BROOKLYN CLOSE

First Game of Double-Header Puts Phillies in Lead; Both Playing This Afternoon

FIRST GAME R H E  
Philadelphia 2 4 1  
Boston 0 3 0

Batteries—Alexander and Kilgus; Ragon, Allen and Gowdy, Brooklyn.

SECOND GAME  
End of third, one-all. Batteries—Gowdy and Kilgus; Reulbach and Gowdy. (Unfinished.)

(Associated Press by Federal Wireless)  
PHILADELPHIA, Pa., Oct. 2.—Coming back after one day's rest, in his willingness to pitch every other day to win the National League pennant for Philadelphia, Grover Alexander today shut out the fighting Boston Braves and all but eliminated them from the race.

Alexander pitched one of the finest games of his career and one particularly remarkable because of the "come back" powers he showed after defeat on Saturday. His big sharp curve and speed ball were working well and he gave Stallings' men but three hits.

It was Alexander's sixteenth shut-out of the year, breaking his own major league record for shut-out victories.

Pat Ragon and Allen, the Boston pitchers, twirled in grand style also, allowing but six hits between them. The second game of this crucial double-header opened with Al Demaree pitching for the Phillies and Ed Reulbach for the Brooklyn. Up to the end of the third inning the score was one-all and both pitchers were going finely, with prospects of a terrific battle.

(Game unfinished up to press time of first edition.)

BROOKLYN FIGHTING NEW YORK

BROOKLYN, N. Y., Oct. 2.—Brooklyn, fighting for the National League leadership, got a run off New York today and at the fifth inning the fourth inning led by 1-0.

Coombs pitched and Miller caught for Brooklyn and Ferdie Schupp twirled for New York, with Hariden behind the bat.

MANY DIE WHEN CAR IS STRUCK BY FREIGHTERS

Switch Engine Causes Midnight Accident at Detroit; More Than Fifty Hurt

(Associated Press by Federal Wireless)  
DETROIT, Mich., Oct. 2.—An accident of terrible proportions occurred here at midnight last night when a switch engine pushing three freight cars crashed into a trolley car loaded with passengers. Eight persons were killed and 53 injured, several fatally.

Most of those killed jumped through the windows of the trolley car and were ground beneath the wheels of the freight of the car trucks.

Five investigators today are endeavoring to get the facts and fix responsibility.

HAWAII RAILWAY STOCK IS SOLD AT AUCTION

Fractional shares of Hawaii Consolidated Railway were combined into two lots and sold at public auction by J. F. Morgan Company as auctioneer this noon. The first lot offered was 176 shares of the 7 per cent preferred stock and it was finally knocked down to Joe Andrade at \$7.50 a share, he taking the entire block. Next 48 shares of common stock was put on the block. This went to Harold B. Giffard at 50 cents a share.

FALKENHAYN HITS RUMANIANS HARD; REPORTS ASSERT

Details of Battle of Hermannstadt Come in Official German Cablegrams

MUCH BOOTY TAKEN, PARTICULARLY TRAINS

Retreat of Forces Through Transylvania is Marked By Abandoned Equipment

Rumanian defeat at the hands of the Germans in Transylvania is given considerable emphasis in an official German cablegram dated Sept. 30 received today. The cablegram says: "German Headquarters Report, Sept. 30.—In the Transylvanian war arena on the east front the Rumanian northern and second armies took the offensive in the Georghi mountains from the line of Fagaras to Odessele and from Fagaras onward. In these mountains the enemy was repulsed.

"Further to the south our vanguard held back the enemy, while German troops near Harbach and south of Henodery successfully assailed a Rumanian column and drove it back, capturing 11 officers and 591 men, with three machine guns.

"On September 26 we initiated an encircling movement with the battle of Hermannstadt, which has now been won by us. The German and Austrian troops under Gen. von Falkenhayn's command, after stubborn fighting crushed strong forces of the first Rumanian army. After bloody losses the rest of the enemy's troops fled in disorganization into the impassable mountains on both sides of Rutenburg pass, which has been occupied by us.

On the morning of September 28 we made a smart march through the mountains and delivered an annihilating fire at the enemy from the Bavarian troops under Lieut. Gen. Kraft von Delmingshausen. The thrust of the second Rumanian army came too late. Our troops fought most heroically since it had become known that the Rumanians, who had entered the combat for civilization, which is menaced by Germany, had assassinated the defenseless wounded. A number of prisoners have been taken and a party in the mountainous woods dispersed.

"In Hoesing mountains and in the Medodia sector the Rumanians attacked, but failed.

Yesterday's Transylvania Fighting  
Of the continuance of the fight in this arena official German advices said yesterday, the cablegram being received today.

"The Rumanian attack on Maros valley and further southward failed at effect, our vanguards partly avoiding the enemy's thrust. The booty made by the German troops in the combat south of Penderf has been increased to eight cannon.

"Northwest of Bogaras the enemy has ceased to attack. From the beginning of the battle of Hermannstadt up to yesterday the Germans brought in over 3000 prisoners, 13 cannon, one aero garage, two aeroplanes, 12 locomotives, 30 railroad cars with ammunition carriages, 200 cars with baggage, 70 automobiles and one hospital train.

"Further materials will be brought in and housed soon from the woods where the fighting occurred. Rotten thorn pass is obstructed with corpses of the enemy. Southward of the pass stronger Rumanian attacks directed against the heights west of Canani were repulsed. In Hateseg mountains the enemy without success attacked Strell valley.

"In the Balkan arena the troops of von Mackensen are also active against the Rumanians. One Austro-Hungarian flotilla on the Danube forced an entrance to the port of Corabia and destroyed nine and captured seven partly loaded ships.

"Air squadrons bombarded Bucharest with visibly good effect. On the Macedonian front in many places between Prespalake and the Vardar valley there were lively fire combats and isolated infantry engagements today, the latter being stopped by a strong attack.

"The enemy has conquered the summit of Kaymak Kalan."

Purchasers Meet Holders' Demands

SCANDINAVIAN COMMERCE IS WRECKED BY TEUTON RAIDERS; GREECE NEAR ENTRY INTO WAR

REPORT IN ATHENS ALLIES HAVE REACHED PLAN FOR MILITARY COOPERATION WITH KING CONSTANTINE'S ARMIES—RUSSIANS STRIKE DEEPER INTO AUSTRIAN FRONT—BULGARIANS SUSTAIN DEFEAT

(Associated Press Service by Federal Wireless)  
CHRISTIANIA, Norway, Oct. 2.—Shattering blows to Scandinavian commerce have been dealt by German submarines within the past few weeks, and recently the raids of the Teuton divers have sunk more of the Norwegian merchant vessels.

News has reached Christiania that a German submarine operating in the Arctic Ocean has torpedoed the Norwegian steamer *Sinsen*, Ravn, Rolp and Jari.

Steamship traffic covering the northern Norwegian towns has been stopped, so numerous have been the depredations of the German torpedoers.

Since August the Germans have sunk Norwegian vessels valued at \$9,000,000. It is the purpose of the Germans probably to interfere with the transportation of war materials to Russia.

Greece Believed Ready to Announce Entry Into War Arena With Allies

(Associated Press Service by Federal Wireless)  
ATHENS, Greece, Oct. 2.—Negotiations between Greece and the Allies are proceeding rapidly toward the entry of Greece into the situation as an active member of the Entente group. It is believed in circles close to King Constantine that an agreement is nearing completion. It is even asserted in some quarters that a military accord, providing for military cooperation, has already been secretly reached.

The refusal of the diplomatic representatives of the Allies to recognize the Kaleropopolis railway, following the fall of the Zaimis ministry, has been hampering negotiations.

One Zeppelin Out of Ten on Raid Destroyed in Sight of Thousands

(Associated Press Service by Federal Wireless)  
LONDON, Eng., Oct. 2.—Ten Zeppelins participated last night in a big raid on England, particularly the east coast counties. Two of them flew over London and attempted to drop bombs on the city but immediately the searchlights picked them out against the dark sky and a fusillade was turned loose from the anti-aircraft guns, while several British aeroplanes took the air against them. One of the "Zeps" was driven away and the other destroyed.

The machine which was destroyed burst into flames in the air, in full view of thousands of people in the outskirts of London. It fell near Potter's Bar. The crew was burned to mutilated fragments as the big airship fell.

Farmers watching the bombardment saw the huge envelope of the machine burst into flames. The Zeppelin remained stationary a minute and then dropped, its burning mass landing 80 yards from a farmer's cottage.

Serbs Beat Bulgars in Hot Fighting

PARIS, France, Oct. 2.—Following up their advantage gained in hard fighting over the Bulgarians on Kaimakalan (Kaimakalan) height, in western Macedonia, the Serbian forces have during the last two days advanced one and a quarter miles north of the height and have occupied the village of Kotehivie.

The Bulgarians made a counter-attack on the newly won British positions on the left bank of the Struma river, but the Serbians threw them back, leaving many dead in the fields.

Report Count Zeppelin Wished to Go

LONDON, Eng., Oct. 2.—A despatch from Amsterdam says that Count Zeppelin, inventor of the airship which bears his name, had planned to accompany the German air fleet on last night's raid, but at the persuasion of his family abandoned the idea at the last moment, after having made all preparations to go.

Vienna Admits Defeat Before Lemberg

VIENNA, Austria, Oct. 2.—The war office today admits that the Russians have made gains in their drive toward Lemberg. They have taken important ground between the Zlota Lipa and Potany.

Austrian Counterattacks Are Futile
